

To whom it may concern, This is very simple. I PAY for radio service for many reasons; Local programming here in the the Los Angeles area is pathetic and the variety of programming available on PAY radio is far superior. I listen to what I want, when I want. XM Radio has the right to offer what ever programming it's customers want to hear. The most important thing is I choose to PAY for radio, if the NAB is so concerned with loosing listeners and advertising revenue they need to offer a better product. It's the American way.
